Parker Residence

Surrounds, Inc.
Outdoor Living Area (Design/Build)

— GRAND AWARD —

This extensive property was void of any decent landscaping or turf. Industrial guardrails framed the driveway while the existing rear patio was uninviting and was frequently inundated with water from flooding. We installed a significant system of retaining walls in the back with extensive landscaping and a stone guardrail system in the front. We installed dozens of trees, shrubs, and grasses to cover over 15,000 sq. ft. of new beds. 🌿

EXCELLENCE IN LANDSCAPE PROFILE
